Use our products for your future Ad campaign!

Advertising on benches or on other urban space elements is an ideal and low-cost possibility to attract attention to your company or to send out an advertising message to potential customers. Benches and bus shelters are particularly well suited for this reason, but also other elements such as litter bins, bike racks...

Advantages:

- the advertisement is addressed to a huge mass of people, so you can reach far more people than with a normal advertising
- benches "work" for example 24 hours a day, 7 days a week
- this kind of advertising is available to everyone, unlike newspaper advertising
- with this type of advertising you can get different impressions of the various observers
